

Organization

Farmers of the district are ready to shift cropping pattern from Wheat-Paddy to the less water consuming crops, but due to lack of any crop specific market in the area, farmers has to travel far away to sell their produce like Basmati, Maize, Mentha, Sunflower, Vegetables and Spices.

There is no permanent crop specific market in the district.

There is no crop specific farmer organization or farmer club to help farmers to sell their produce in the adjoining markets at good price.
